PROFILE

I am a driven and adaptable Data Science Honours student seeking an internship opportunity to apply and grow my skills. I have gained practical experience through a student holiday internship at Dynetek Ltd., where I worked with AL Development, Power BI, and Microsoft Dynamics NAV. I am eager to take on new challenges, contribute to real-world projects, and continue learning in a professional environment. As part of my Honours degree, I am required to complete a full-time internship in 2026.

WORK EXPERIENCE

Dynetek Ltd.
Student Intern
December 2023 (1 month) & December 2024 – January 2025 (2 months)

- Developed a cross-platform mobile application using Flutter.
- Created interactive financial reports in Power BI by working with aggregated business data and leveraging DAX for custom metrics and insights.
- Contributed to the development of Microsoft Business Central extensions, enhancing system capabilities and workflows.
- Worked with C# as part of backend development tasks for internal tooling and system support projects.
- Assisted in customizing document templates and business reports within Microsoft Dynamics NAV.
